

**Green Party Ealing**

**DEVELOPMENT OVERDRIVE IN HANWELL**  
**TIME TO RENEW THE BATTLE**

## WE'RE WINNING BUT THE BATTLE CONTINUES

After our successful campaign against the "Marshall" Development the initial planning permission was rejected by Ealing Council. However the Developers have appealed the decision to the Secretary of State. We need to renew our pressure to ensure the appeal is unsuccessful.

**Here's why:**

## PARKING HELL ON THE WAY

Under the guise of sounding 'green', these developments offer zero or limited parking. But people have cars, and they will have to park them on our roads and traffic congestion will increase.

## NO SOLUTION TO THE HOUSING CRISIS

For sure, London needs more homes. But these developments are not the solution. They will be unaffordable for people most in need of somewhere to live.

## WE NEED REAL HOMES FOR LOCAL PEOPLE NOT OVERSEAS INVESTORS

There are only 9 affordable housing units planned for this development all crammed into one isolated block. This development is to maximise profit, not as places for people to live and risks a ghetto effect.

## WRECKING THE COMMUNITY

Hanwell is a wonderful place because people can live, study, work and shop here. Flats like these will overwhelm our overstretched hospitals, schools and public transport.

## WHO IS EALING COUNCIL WORKING FOR?

Ealing seems to be working only for the big landowners and developers, not for local people. The Labour-dominated council needs a Green voice to hold them to account.

## HANWELL NEEDS TO SPEAK UP FOR WHAT IT WANTS

The people of Hanwell need to pull together to develop a vision for what we want our community to be.

## WHAT CAN I DO?

(1) Comment on this development at the planning portal at:

**<http://bit.ly/StopMarshall>**

Reference number:

**APP/A5270/W/18/3212646**

(2) Join the Ealing Green Party. We'd love to hear from you.
